INTERNATIONAL CAMPUS
ZHEJIANG UNIVERSITY
浙江大学国际联合学院

User Guide
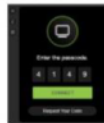

1. Turn on the equipment:

Plug in socket - click the desktop power button to turn "green" and turn on the
power button below the display screen.

2. Select wired or wireless projection

Wired screen projection: select a convert line suitable for your laptop, and when the connection is
successful, it turns to green and the Numbers 1 and 2 appear. Click 1 and 2 to project the screen to
double screen and click 1 or 2 to project the screen to single screen.

Wireless screen projection: Install Virtual Puck APP (address: techsupport.steelcase.com) - click
"Request Your Code" for a screen code, four shots screen code appears in the left upper corner of the
screen - input screen code in your laptop for projection.

3. Turn off the equipment:

Turn off the switch below the display screen and unplug the socket.
