User Guide for Windows PC Client

Windows Client Download

Open your browser (recommended: Chrome, Firefox, IE11, or 360 Secure Browser), enter the URL <https://vpn.zju.edu.cn>. Taking Edge as an example, the client download page will then pop up.

Client Download

After opening the page, click <Download Client> in the upper right corner, select Windows, and then click <Download>.

Client Installation

After downloading the installation package to your computer, locate it in your browser's downloads section and click on the package to install.

Client Installation

On the installation interface, click <Install Now> and wait for the progress bar to complete. Once finished, click <Close>.

(The default installation path for Windows systems is C:\Program Files (x86)\Sangfor\ATrust\, and the installation path cannot be modified.)
