

User Guide for the New RVPN System (aTrust Client)

Applicable to aTrust V2.1.12 version and above

一、User Guide

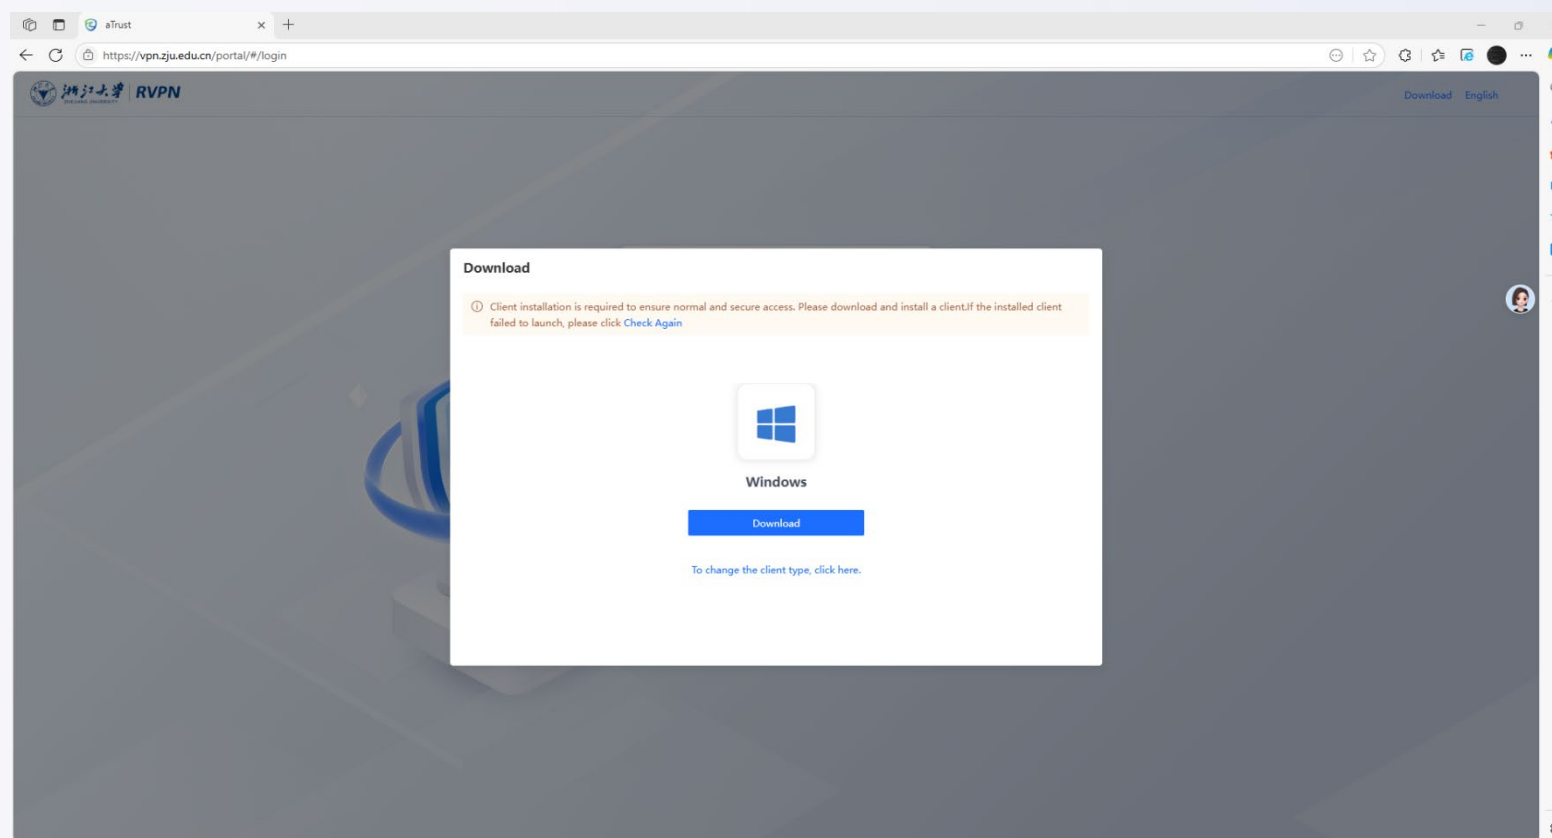

1.Windows PC

2.MacOS PC

User Guide for Windows PC Client

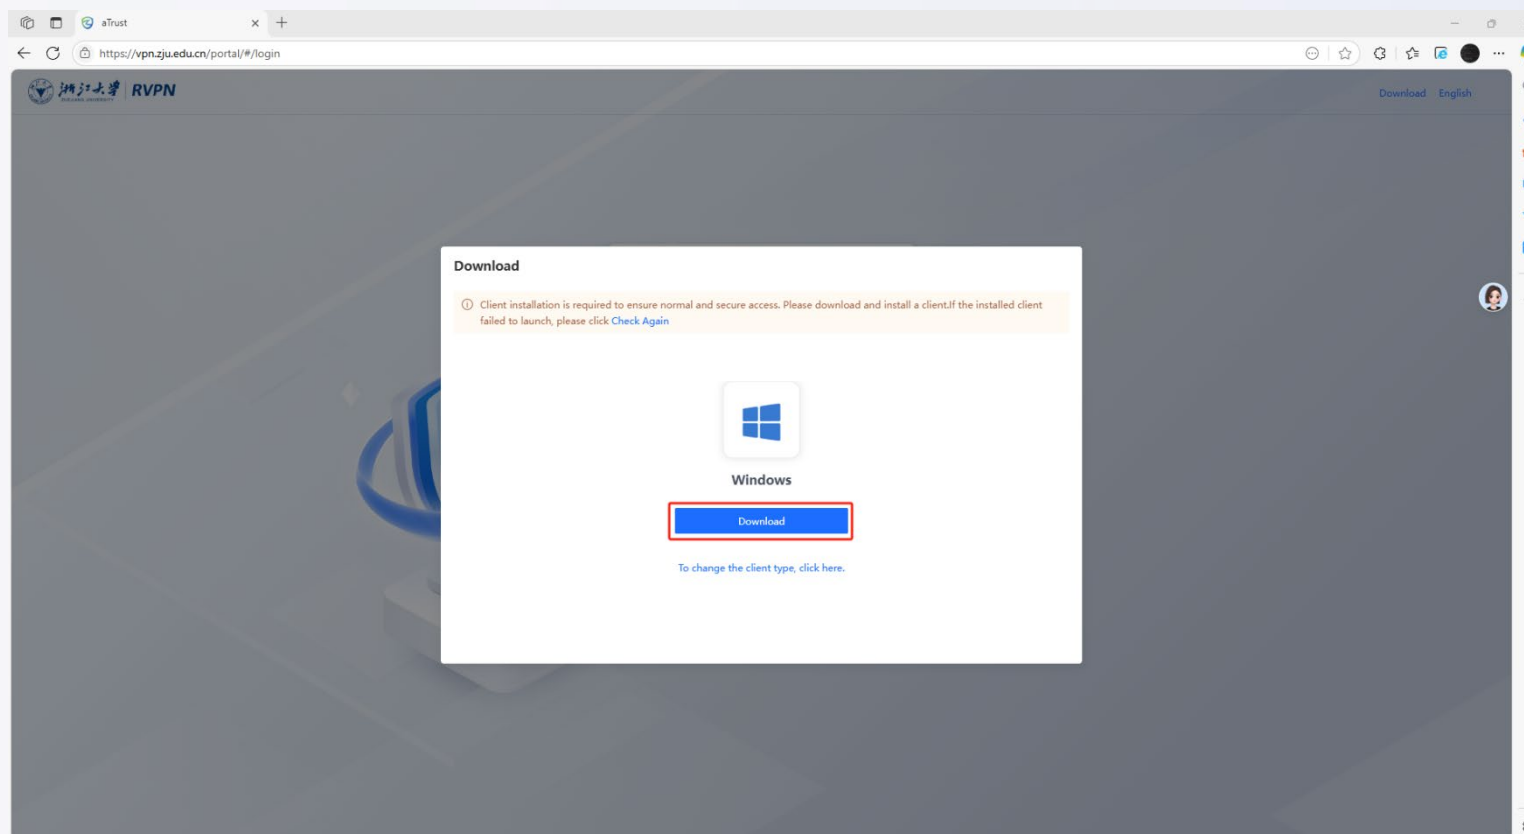

Windows Client Download

Open your browser (recommended: Chrome, Firefox, IE11, or 360 Secure Browser), enter the URL <https://vpn.zju.edu.cn>. Taking Edge as an example, the client download page will then pop up.

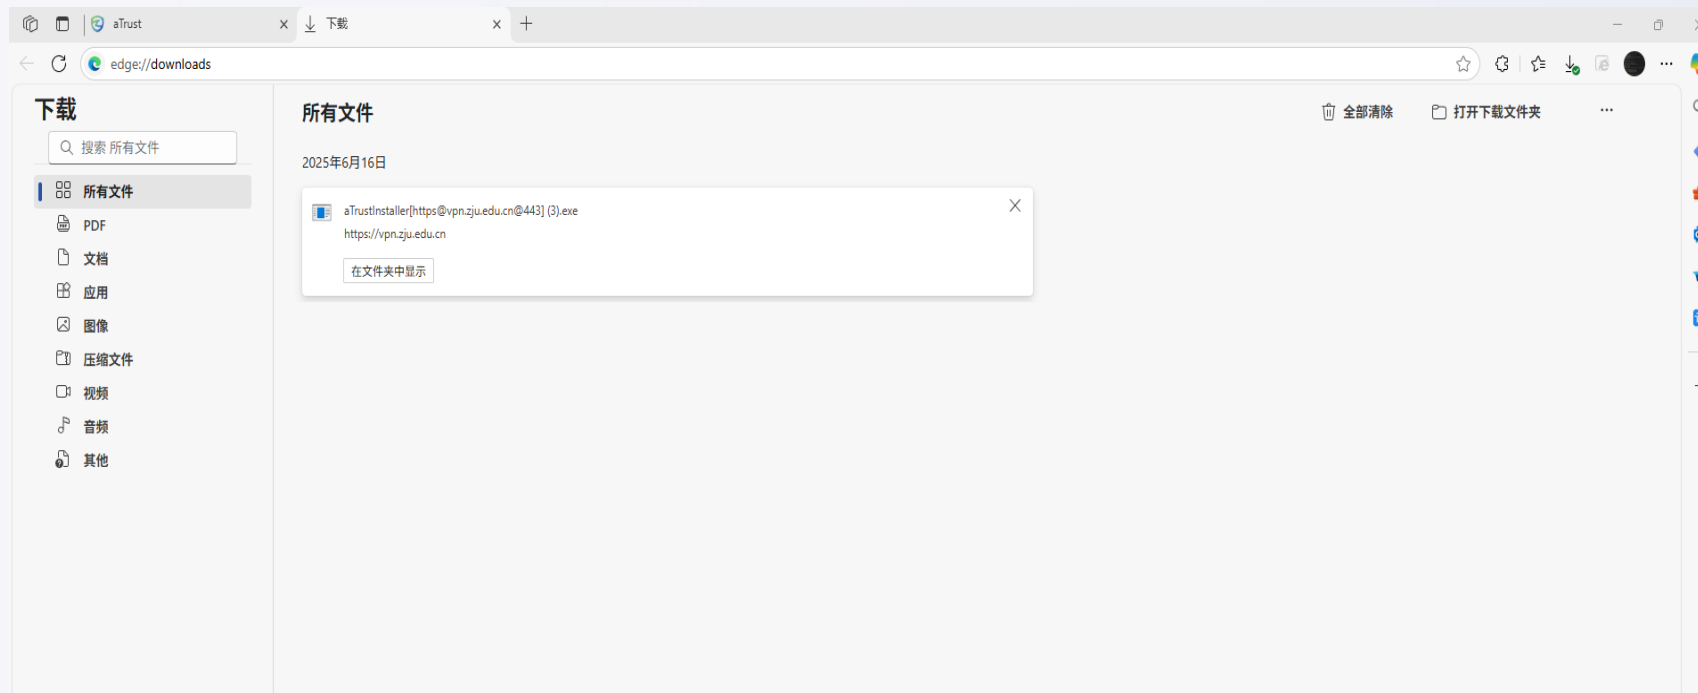

Client Download

After opening the page, click <Download Client> in the upper right corner, select Windows, and then click <Download>.

Client Installation

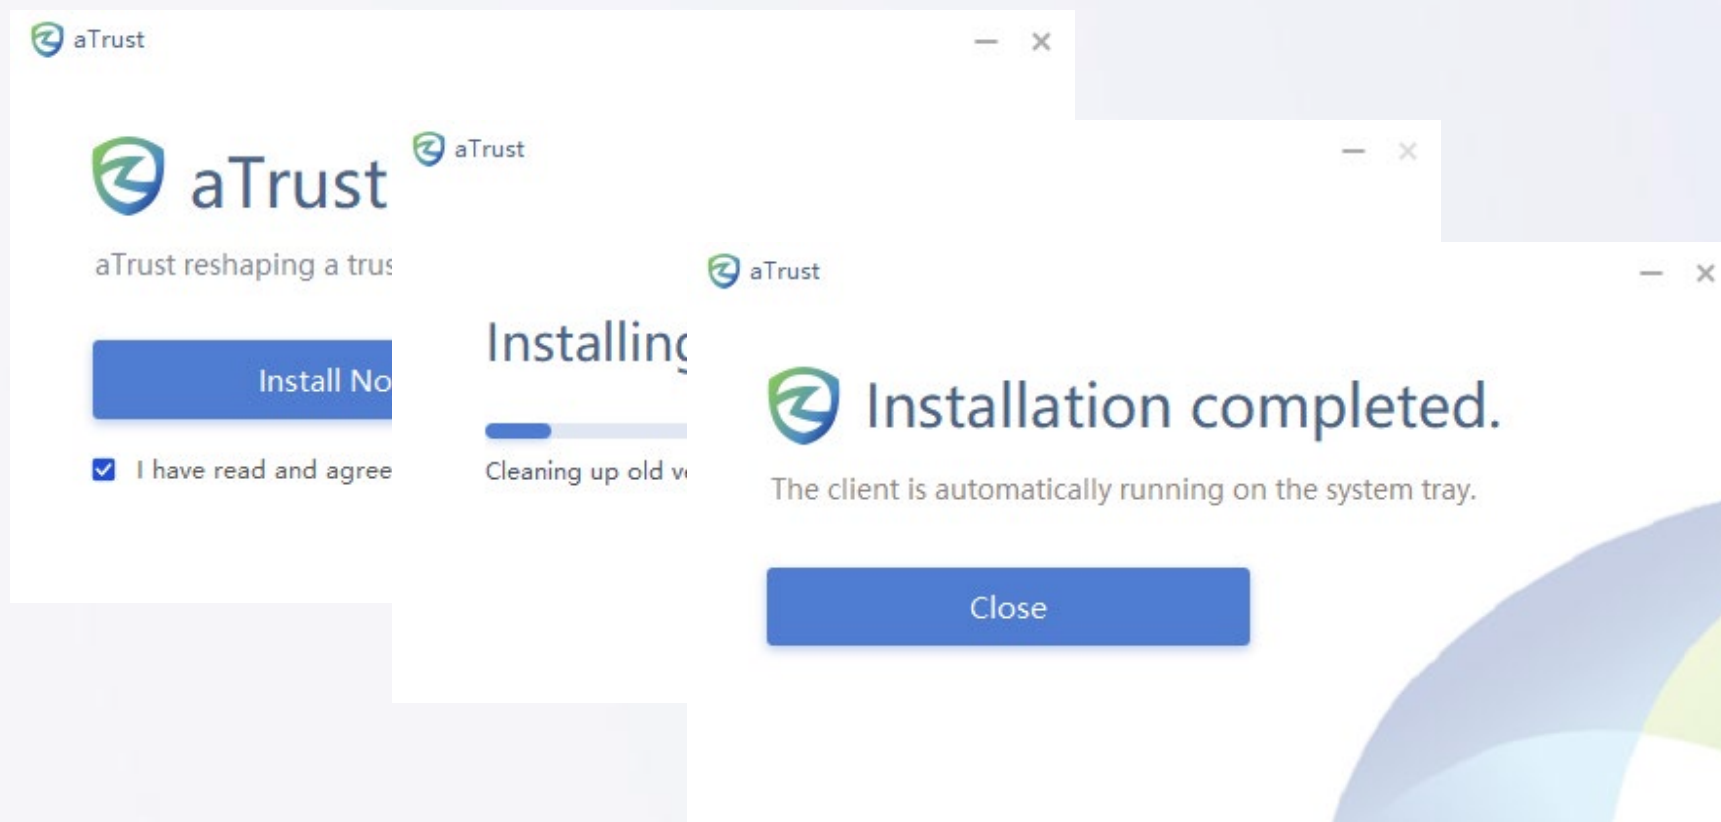

After downloading the installation package to your computer, locate it in your browser's downloads section and click on the package to install.

Client Installation

On the installation interface, click <Install Now> and wait for the progress bar to complete. Once finished, click <Close>.

(The default installation path for Windows systems is C:\Program Files (x86)\Sangfor\ATrust\, and the installation path cannot be modified.

Manual login entry switching

1、Login with INTL ID account

Register mobile number at first login

2、 To log in to RVPN using your INTL ID, please first click the link below to register your personal mobile number.

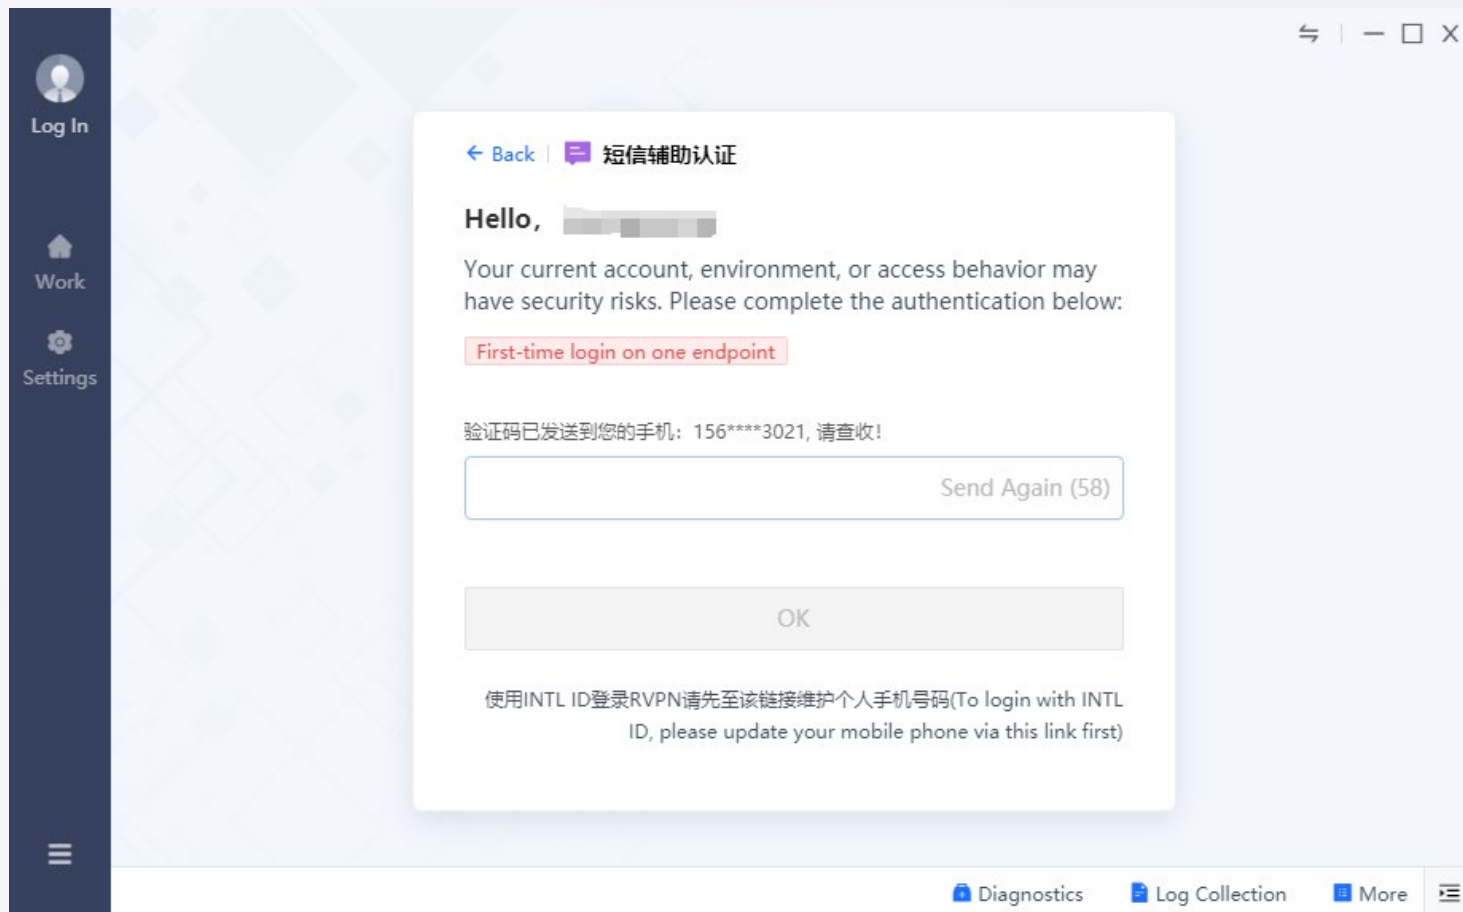

Client Login

3、 After updating your mobile number, allow approximately 3 minutes for data synchronization. Once the system refreshes, double-click the desktop client icon, select 'Login with INTL ID', then enter your credentials and click <Log In>.

SMS Authentication

4、 After obtaining the SMS verification code, enter it to complete the login process to the new RVPN system.

The screenshot shows a web application interface for RVPN login. On the left is a dark blue sidebar with icons and labels for 'Log In', 'Work', and 'Settings'. The main content area is light blue and displays a white authentication modal. The modal has a title bar with a back arrow and the text '短信辅助认证'. Below the title, it says 'Hello, [redacted]' and 'Your current account, environment, or access behavior may have security risks. Please complete the authentication below:'. A red box highlights the text 'First-time login on one endpoint'. Below this, it states '验证码已发送到您的手机: 156****3021, 请查收!' (Verification code has been sent to your mobile phone: 156****3021, please check!). There is a text input field for the code, with a 'Send Again (58)' button to its right. Below the input field is a large grey 'OK' button. At the bottom of the modal, there is a note: '使用INTL ID登录RVPN请先至该链接维护个人手机号码(To login with INTL ID, please update your mobile phone via this link first)'. The bottom of the page features a footer with links for 'Diagnostics', 'Log Collection', and 'More'.

Website Resources

After successfully logging in to RVPN, open your browser and enter the address of the business system to access the internal network business system.

Screenshot of the Zhejiang University (ZJU) website interface, showing the main navigation bar, search bar, and various service links.

The browser address bar shows: `zhfw.zju.edu.cn`

The website header includes the ZJU logo and name, a search bar, and a language selector (English).

The main navigation bar lists the following categories: 首页 (Home), 校情总览 (Overview), 求是新闻 (News), 综合服务 (Services), 学校机构 (Institutions), 教师队伍 (Faculty), 教育教学 (Education), 科学研究 (Research), 招生就业 (Admission), 合作交流 (Cooperation), 走进浙大 (About ZJU), and 浙大服务 (ZJU Services).

The main content area is divided into several sections:

- 热点专题 (Hot Topics):** Includes links to 理论学习资源网 (Theory Learning Resource Network) and 创新2030计划 (Innovation 2030 Plan).
